Fire Safety Risk Assessment (FSRA) Overview

Premises:
St Cuthbert Wanderers Football Club, St Mary's Park, Castledykes Road, Kirkcudbright, DG6 4AW

1. Identified Fire Hazards

- **Ignition Sources:** Tuck shop cooking appliances, changing room water heating units, floodlights, and electrical ICT equipment.
- **Fuel Sources:** Clubhouse lounge textiles, polyurethane foam seating, cooking oils, packaging materials, and external maintenance facility lubricants.
- **Oxygen Sources:** Natural air ventilation throughout stadium windows, doors, and open spectator zones.

2. People at Risk

- Matchday crowds (up to 848 persons).
- Players, coaching staff, and officiating crews using enclosed dressing blocks.
- Vulnerable attendees, including young children in youth academies or older participants participating in local walking football schemes.

3. Hazard Mitigation & Action Plan

- The overall risk profile is deemed Medium (6) due to public attendance and hot catering elements. The following control framework is recommended to achieve a Low residual risk status:

4. Emergency Fire Action Plan Summary

1. **Discovering a Fire:** Immediately sound the nearest physical break-glass call point.

- Contacting Services: Dial 999 and explicitly state: "Fire at St Cuthbert Wanderers FC, St Mary's Park, Castledykes Road, Kirkcudbright, DG6 4AW."
- Evacuation: Stewards must guide all players and matchday fans through the external perimeter double-gates onto Castledykes Road.
